Do you want your glasses to last longer?

Diamond Finish

The wear and tear of everyday life can scratch and diminish the appearance and performance of your glasses. HOYA's unsurpassed **Diamond Finish** multicoat is designed to completely protect your lenses from life's everyday mishaps.

The advanced technology of **Diamond Finish** provides you with the highest scratch resistance available – 5 times more scratch resistant than standard multicoats in the market – ensuring long term durability and excellent performance.

Providing clearer & more comfortable vision

Diamond Finish multicoated lenses will significantly reduce glare and eliminate reflections, providing clearer and more comfortable vision outdoors and when driving at night.

Condensation, rain, oil and dirt will regularly come into contact with your lenses. **Diamond Finish** offers protection through its unique dirt, water and chemical repellent qualities preventing these elements from affecting your vision. These highly developed lenses are also much easier to clean, and will stay cleaner for longer.

Best Coating winner awarded following tests carried out in Aug 15 by NSL Analytical ESWT, Ohio, USA
