

ID CLASSIC

STANDARD MULTIFOCAL LENSES

Standard multifocal lenses have large distortion areas at the sides of the lens. Common complaints include a 'swim and sway' feeling when moving around and vision problems when changing focus from near to far distance.

ID CLASSIC LENSES

ID Classic lenses provide natural stable vision when moving around. Near and intermediate vision fields are extremely wide, so you can comfortably use mobile devices and read. With ID Classic you will enjoy supremely effortless focusing, relaxed vision, crisper and clearer images. Welcome to clear and natural vision.

HOYA

Highly recommended with:

- Award-winning anti-reflective coating
- 5 times more scratch resistance than standard coatings
- Lenses stay cleaner for longer

- Reduces eye strain and fatigue
- Neutralises blue light from digital screens
- Available with Diamond Finish

- Light reactive lenses that change according to the light
- Sunglass dark outdoors, clear indoors
- Available in natural grey, brown and green
