

MYSTYLE V+

STANDARD MULTIFOCAL LENSES

Standard multifocal lenses have large distortion areas at the sides of the lens. Common complaints include a 'swim and sway' feeling when moving around and vision problems when changing focus from near to far distance.

MYSTYLE V+ LENSES

MyStyle V+ lenses provide the most natural stable vision when moving around. Near and intermediate vision fields are extremely wide, so you can comfortably use mobile devices and read. Distance judgement is enhanced through binocular harmonisation technology. Distortion and unpleasant sway effects are reduced to the absolute minimum.

HOYA

Highly recommended with:

- Award-winning anti-reflective coating
- 5 times more scratch resistance than standard coatings
- Lenses stay cleaner for longer

- Reduces eye strain and fatigue
- Neutralises blue light from digital screens
- Available with Diamond Finish

- Light reactive lenses that change according to the light
- Sunglass dark outdoors, clear indoors
- Available in natural grey, brown and green

HOYA

CRAFTED FOR YOUR EYES

MYSTYLE V+

Crafted for your eyes

Just like our fingerprints, eyes are unique to each individual. Because of this, **MyStyle V+** lenses are tailored to your eyes like a bespoke suit is tailored to your body.

MyStyle V+ lenses are designed for people who believe their eyes deserve nothing but the best and don't want to compromise their vision.

The superior design incorporates three patented Hoya technologies and is derived from a long series of precise measurements, captured for crafting your individualised lenses. This includes not only your prescription but also your eye movement, previous lens experience, your frame, the way you wear your frame and your lifestyle preferences.

MyStyle V+ is the most individualised lens of its kind.

HOYA

EVERY EYE IS UNIQUE, JUST LIKE FINGERPRINTS & YOUR MYSTYLE V+ LENSES

DESIGN TECHNOLOGY

BENEFITS OF MYSTYLE V+ LENSES

TOTAL ANALYSIS

Results in easy adaptation to the lenses thanks to the analysis of your prescription power, lifestyle and past lens wearing experiences.

INTEGRATED DOUBLE SURFACE DESIGN

Delivers natural, effortless vision from the minimisation of visual distortion and reduction of eye movement from far to near.

INFINITE OPTICS

Provides the most customised progressive lenses available in the market.

BINOCULAR HARMONISATION

Enables easy focusing, improved depth perception and effortless focusing from near to far. It does this by accounting for the different prescription powers in two eyes.
