

LIFESTYLE V+

Highly recommended with:

STANDARD MULTIFOCAL LENSES

Standard multifocal lenses have large distortion areas at the sides of the lens. Common complaints include a 'swim and sway' feeling when moving around and vision problems when changing focus from near to far distance.

LIFESTYLE V+ LENSES

LifeStyle V+ lenses provide natural stable vision when moving around. Near and intermediate vision fields are wider, so you can comfortably use mobile devices and read. With **LifeStyle V+** you will enjoy effortless focusing, relaxed vision, crisper and clearer images.

- Award-winning anti-reflective coating
- 5 times more scratch resistance than standard coatings
- Lenses stay cleaner for longer

- Reduces eye strain and fatigue
- Neutralises blue light from digital screens
- Available with Diamond Finish

- Light reactive lenses that change according to the light
- Sunglass dark outdoors, clear indoors
- Available in natural grey, brown and green.

OPTIMISED FOR YOUR LIFESTYLE

LIFESTYLE V+

Multifocal lens designs are not all the same

LifeStyle V+ customised multifocal lenses provide clear, relaxed vision and effortless focusing for all distances - near, intermediate and far.

The advanced design is derived from intensive research as well as wearer feedback and behaviour. When creating these premium multifocal lenses, we drew an important conclusion from wearer analysis: one design doesn't fit all. This insight led to the development of two design variations; **LifeStyle V+ Clarity** and **Harmony**.

HOYA

CLARITY

IDEAL IF YOU SPEND A LOT OF TIME OUTDOORS.

For highly active people, who are regularly 'on the go' and require emphasis on the distance zone.

Clarity is popular with individuals new to wearing multifocal lenses.

HARMONY

PERFECT IF YOU REQUIRE ALL-ROUND VISION.

Harmony is perfect for near, intermediate and far distance.

Ideal for people seeking one pair of glasses for everyday activities including reading and computer work.

DESIGN TECHNOLOGY

BENEFITS OF LIFESTYLE V+ LENSES

VIEW EXPANSION

Maximises your view at all distances, for better vision.

STABLE VIEW

Reduces the 'swim and sway' effect when walking down stairs or simply moving your head around. This is a common complaint experienced by standard progressive lens wearers.

INTEGRATED DOUBLE SURFACE DESIGN

Minimises visual distortion and reduces eye movement from far to near distance, for more natural vision.

LIFESTYLE ADAPTIVE

The lens design is customised to your lifestyle, optimising your visual comfort.
