NUPOLAR

Prescription sunglasses that will change
the way you see the world, ask us how.

Are you blinded by glare?

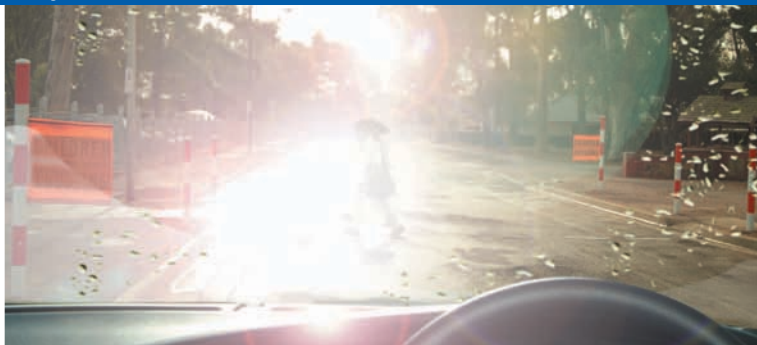

Glare and reflecting sunlight can impair or block your vision in everyday activities. Regular tinted lenses reduce the amount of visible light, however they do little to eliminate glare. HOYA NuPolar Premium Polarised sunglasses can cover virtually any prescription and are suited for everyone. Whether you lead a busy outdoor life or enjoy a casual read in the backyard, HOYA NuPolar are the prescription sunglasses for you.

Suitable for everyone in all conditions
