

## Safety Frame Portfolio Expansion

### Plano Safety Eyewear Launch

HOYA is pleased to announce via its partnership with Matador Equipment a new range of non-prescription/plano safety eyewear into the Australian and New Zealand market place.

There are two models available – Barcelona and Granada.

Both frames are have the following benefits:-

- Made from TR90 material.
- Come standard with a positive foam seal.
- The polycarbonate lenses in both frames are double side hard coat and also include an anti-fog and hydrophobic coating.
- The lenses are a standard 75% grey tint.
- The frames are both 8 base in design.
- Both frames have been tested and meet the requirements of AS/NZS 1337.1 and are certified to this standard.
- Both frames come with a one year warranty against manufacturing defect.
- Various colours available.
- Rubber nose pads and rubber injected temple arms

For further information on this new range and how it can benefit your business please contact our sales or customer service departments.

**Please note that these frames are non-prescription frames, by adding a prescription lens to this frame doesn't mean the frame meets the prescription safety eyewear Standard and as such the frames have been designed for the sole purpose of non-prescription/plano eyewear.**

**'No refund for incorrect choice' or 'No refunds if you change your mind' will also apply to these frames.**
